FINNISH SAUNA

The ancient Scandinavian tradition of enjoying a dry heat sauna purifies the body and relaxes the muscles for the ultimate psychological and physical wellbeing.

BIO SAUNA

Gentler than the Finnish sauna but just as effective, the Biosauna is suitable for anyone who wants to enjoy the benefits of dry heat.

INFRARED CABIN

A modern alternative to the traditional sauna, this product achieves the same results using moderate heat produced by infrared rays that penetrate soft body tissue.

HAMMAM

The hammam, also called steam bath, is a very ancient, damp heat bath that boosts the respiratory system by producing intense perspiration.

EMOTIONAL SHOWER

This multi-sensorial experience combines the virtues of water with the benefits of chromo and aromatherapy to dispel anxiety and stress and restore perfect mind-body balance.

MULTIFUNCTION SHOWER

Very pleasant functions exploit all the energy and vitality of water for a complete hydrotherapy treatment: cascade, vertical hydromassage and shiatsu, hammam.
